

PNC Virtual Credit Card Program Acknowledgement Form

- This payment method is a virtual credit card payment and your company must have the capability to process credit card transactions.
- PNC Bank does not charge any fees; however, your merchant processor may charge a fee when processing the credit card payment. Sherwin-Williams will not be responsible for any fees associated with credit card processing.
- Payment terms with this program are 30 days. When an invoice is due, payment will be made via an email remittance containing credit card information that must be processed by the Sherwin-Williams' supplier.
- For more secure payments, this will be a single-use credit card number and each payment remittance will have a new credit card number associated with it.
- Split transactions are not permitted and will be declined. The credit card payment must be processed for the full payment amount.
- You will be provided a PIN and document containing instructions for accessing credit card information once you are fully enrolled. This information will be coming from VMMTeam@Sherwin.com.
